

Tata Xenon

Offering a “Perfect Balance”:

The Tata Xenon is sturdy and powerful to work hard for you, and offers aggressive styling to make your presence felt on the road.

The Tata Xenon delivers:

- Contemporary styling
- Better engine technology and power
- Superior interior comfort and convenience
- Better ride and handling, thereby being an ideal “dual use” vehicle.

Engine Options

With a choice of 2 powerful common rail diesel (DICOR) engines with excellent low end torque and 1 petrol engine, the Tata Xenon can tackle even the most demanding of tasks.

- 3.0L DiCOR (available in Euro II): 84.5 kW @ 3000 rpm, 300 Nm @ 1800 – 2000 rpm
- 2.2L DiCOR (available in Euro-II Euro-III and Euro-IV): 103 kW @ 4000 rpm, 320 Nm @ 1700 – 2700 rpm
- 2.2L DiCOR (available in Euro -V): 110 kW @ 4000 rpm, 320 Nm @ 1500 – 3000 rpm
- 2.1L Gasoline (available in Euro-II): 99.5 kW @ 5630 rpm, 195 Nm @ 3750 rpm

Superior DICOR Technology

The Tata Xenon with 2.2L DiCOR engine delivers exceptionally clean emissions. The common rail diesel technology works at maximizing fuel efficiency and reducing combustion noise and delivers improved power and torque through the entire speed range.

Aggressive Styling

Aggressive frontal styling and flared wheel arches give it a contemporary look and lend a commanding road presence. Big, strong, imposing, distinctive, modern, and aggressive - The Tata Xenon is available in SC & DC configurations.

Functional & Comfortable Interiors

Comfortable front and rear passenger room, neatly laid out instrument cluster, cup holders, clock, CD player, power windows, electrically adjustable and heated ORVMs, HVAC (with pollen filter) and the option of 2 colors on the interiors.

Safety

The Tata Xenon is rock solid with a crashworthy chassis frame structure and body, and side intrusion beams.

Stability, Ride and Handling

The double wishbone front suspension with torsion bars and parabolic leaf springs on the rear ensures stability and body control even with maximum payload. A surprisingly small turning circle makes it easy to maneuver even on crowded streets. The limited slip differential can sense when a wheel is losing traction and distribute the necessary torque to the wheels that have better grip – making this a suitable choice even for off-road enthusiasts. The Tata Xenon is available in both 4x2 & 4x4 configurations with all the engine options.

Load Carrying Ability

The Tata Xenon offers over 1 Ton of payload on its single cab configuration.

Standard / Optional Features

- Remote central locking
- Immobiliser
- Front and rear fog lamps
- Air-conditioner
- Super select 4 wheel drive : electronic shift - on - the – fly
- Heating & demisting
- Electric / power windows
- Electric outer rear view mirror
- Side foot step
- Alloy wheels
- Tilt-able power steering
- Airbags – driver, passenger
- ABS
