

## Tata Safari Storme

True to its 4WD pedigree, the new Tata Safari Storme epitomises style and performance combining luxury and comfort with raw power and supreme off-roading capability.

### Power & Performance

The SUV is powered with a 2.2 L VariCOR engine, turbocharged with VTT (Variable Turbine Technology). It delivers 110 kW Power & 320 NM Torque, providing easy driveability and swifter response. The turning circle radius of 5.4 metres makes driving and manoeuvring in tight confines absolutely easy. The new rack & pinion steering system offers perfect feel and accuracy, for a confident driving experience, especially at high speeds.

### Looks & Style

The Safari Storme has an all new front look grille, side cladding, new projector headlamps and an all new rear look. The bonnet now boasts of a 'power bulge,' which gives it a sportier look. The tailgate trim comes in an all-new-guise of ergonomically designed grab handles and a spare tyre located underneath the vehicle. The new chrome-tipped twin exhausts add to the sporty demeanour of the vehicle, and the newly designed roof-rails add to the muscular look.

### Comfort & Convenience

There is ample leg space and headroom to accommodate the family, and also plenty of luggage space. The tilt-adjust collapsible steering column, reclining front bucket seats with fore/aft adjustment position and lumbar support ensure fatigue-free long drives. The vehicle is equipped with a dual-AC with a separate integrated roof mounted blower for rear passengers.

### Safety

Crumple zones, side intrusion beams on all four doors, dual SRS airbags and the collapsible steering column keep passengers safe from all sides. The vehicle has vacuum assisted independent hydraulic, ventilated disc brakes on all four wheels and ABS with EBD, which helps in keeping the vehicle under control, during emergency braking conditions. In addition, there are features like the inertia switch and an auto engine immobiliser.
